The association also voted to authorize the board of trustees of the fund to use their discretion in expending it.

Principal speaker at the meeting was Charles C. Jaubert, Lake Charles lawyer, a graduate of St. Stanislaus and a state deputy of the Knights of Columbus.

Among those attending the meeting were three former graduates who are now brothers. They are Brother Cury, New Orleans; Brother Alvin, Bay St. Louis, a faculty member at the school, and Brother Carol of Donaldsonville.

Here they had a cottage for several days in a tropical setting of sand and coconut palms.

Two days of the yachting trip were spent in Miami cruising up the canals of the city after which the party returned to Fort Lauderdale and Dr. and Mrs. Evans drove back through the citrus groves of central Florida which were laden with both fruit and blossoms.

A large representation from the chapters in this area were present. Mr. Phillip Gabriel, member of the Red Cross Board of Mobile, Ala., spoke on Services.

Dr. Bradshaw, psychiatrist at the hospital and Mr. Freeland, in charge of special services, there, gave short talks. Chaplain Parker made a request for volunteers to make choir robes to be used by the patients attending church services at the hospital.

Mr. Leonard, in charge of special services of the Biloxi VA Center, spoke briefly followed by Mrs. Margaret Trenchard of New Orleans, Volunteer Consultant of this area.

A course for training instructors in home nursing will be conducted April 23-27 in Biloxi by the American Red Cross. Mrs. Eugene F. Farrelly and Mrs. Milton Phillips, Jr., from the Hancock County Chapter will take the course.

Following the instruction course, classes in home nursing will be held for the community. Anyone interested in taking the course, contact Mrs. Walter Gex, chairman of nursing services, 405; Mrs. Leo Ford, chairman of home nursing, 64, or the Red Cross office, 67.

What happened to the terrible disaster, predicted some years ago, if the United States did exactly what it did?

Volunteer workers for the Red Cross Fund Campaign have been canvassing the town for donations and are working hard in an all out effort to meet the local quota for 1951.

To finance what may be the greatest work in its 69 year history the American Red Cross launched its month long campaign two weeks ago to raise some \$85,000,000 for next year's operations. Of this the local quota is \$4,600.

The national goal for the year is up 27 percent with Bay St. Louis sharing along with other communities in the increased demand for help from service personnel and their families.

The \$18,000,000 boost in this year's goal is due entirely to the enormous load placed on the Red Cross by expanding military forces and by the civil defense program.

The present Red Cross part in the civil defense program represents the largest peace-time program in which the organization has ever engaged.

David Sarnoff, chairman of the board of the Radio Corporation of America, who is this year's Red Cross National Fund Campaign Chairman said that in the present state of world unrest "the job to be done by the Red Cross for the military and for civil defense, plus maintaining its normal day to day activities adds up to what can be the biggest task the Red Cross has ever undertaken."

## Chamber of Commerce Votes On Important Improvements For Bay St. Louis & County

A general meeting of the Hancock County Chamber of Commerce was held Tuesday night at the Court House with Howard LeTissier, president, presiding.

Mr. LeTissier stated that for the remainder of 1951 regular meetings of the Board of Directors and the general membership would be held and suggested that since the handling of the business of the C. C. is such a large task some of the operations be delegated to committees.

A discussion was held concerning the painting of the names of streets on curbs and where this is not feasible the placing of street signs. A motion was made and passed that the Hancock County Chamber of Commerce request the City of Bay St. Louis to stencil the names of streets on curbs wherever possible and where not possible to stencil same on sidewalks or on telephone or light poles, these names to be painted by the city employees whose job is the painting of gas meters and fire plugs.

LeTissier then spoke on the subject of a sand beach and after a discussion of this a motion was made that the president be authorized to appoint a liaison committee to work hand in hand with city officials and members of the park commission to promote the building of a small sand beach at Bay St. Louis. This motion was seconded and unanimously passed.

Dr. Wolfe spoke on the dangers of live stock running at large on public highways in Hancock County, especially at night, he said, "the presence of livestock on public highways in this county is exacting an ever increasing toll in human life." He proposed a law similar to that in other counties restricting livestock.

X. T. Robin made a motion to adjourn. Dr. Wolfe moved to investigate the proposed law. The motion was seconded and unanimously passed.

What happened to the terrible disaster, predicted some years ago, if the United States did exactly what it did?

## CHAMBER OF COMMERCE ASKS FOR SAND BEACH

The Chamber of Commerce at its regular monthly meeting Tuesday night advocated the building of a "small" sand beach, about 100 or 200 feet. One they say could be kept clean with a minimum of effort. We are strongly in favor of this or any other proposition for a sand beach of some kind, just so we get one as soon as possible, because if we don't wake up and get something to bring tourists here we are going to find ourselves bypassed as if we never existed.

We don't have to try to duplicate what Harrison County is doing over on their side but we can at least show that we are interested in the future welfare of our town by buckling down and doing something to bring tourist dollars into the pockets of our local merchants.

The American Legion has started a sand beach movement which might easily prove a forerunner to something really big for our community, so why not all of us pitch in and help them and if their project proves successful we can just continue to add to it until we will eventually have a beach the entire length of our shoreline.

A task of this kind may look impossible to us now, but unless we get started we will never know how much can be accomplished through our united efforts.

The Chamber of Commerce also asked the city to paint the names of the streets on sidewalk curbs, telephone poles, or just put up markers where necessary. We also think this is a splendid idea and should have the whole-hearted backing of the city fathers.

## DRUNK DRIVERS DANGEROUS

Hundreds of good people will be killed on the highways of the United States before the year 1951 ends.

There seems to be little public indignation over the slaughter. The average automobile driver, acquainted with the natural hazards of the road, hesitates to incite drastic penalties through the fear that some unavoidable catastrophe will land him in the hoose-gow.

There was a time when high speeds were blamed for most of the accidents but the years have produced better cars and better highways. What would have been criminal carelessness in the Twenties and Thirties is considered reasonably safe in the Fifties, and, some years from now, the present speeds will be routine.

There are certain recognized criminal acts in connection with the operation of motor vehicles, however, which will continue to be condemned. Driving an automobile under the influence of alcohol is one of them. It is dangerous, not only to the driver, but to all who use the highways.

The drunks are public enemies when operating automobiles and should be "persuaded" to let others drive in peace. It is a crime and should be promptly punished as a crime. To do this will save many lives.

MISS DORA LEE LIVINGSTON, 19-year-old MSCW student, of Yazoo City, who succeeds Miss Betty Denton of Tupelo as Mississippi's official "Miss Hospitality". Miss Denton is to be married March 20th to Ensign Davis Langston of Tupelo and Washington, D. C.

## WAVELAND WANDERINGS

By Mrs. George Hall

Easter time is the time for eggs and the time for eggs is the Easter time! Next week this time everyone will be getting new Easter bonnets and outfits ready for the Easter parade. Good Friday, Easter Sunday will find the churches crowded with worshippers. Then, of course, there will be the ever present crowd of young people from New Orleans, sororities and fraternities from Newcomb, Loyola and Tulane and the high school set. Many summer homes will be opened during the Easter week and for the first time since September and in spite of the weather the sea wall and beach will be dotted with girls in the latest in bathing suits and shorts. Local stores will be crowded, roasts and bonfires will be held in the sand, and the young fry will have the tummy ache from too many hard boiled and chocolate Easter eggs.

The children of the Waveland School are going to celebrate the coming of Easter on Thursday, March 22 at 2:00 p.m. At this time a gala Easter Egg Hunt will be held on the school's campus. Admission for this eagerly anticipated fun and eat fest is only ten cents! Any little boy or girl can take part in the hunt even if he is not a pupil of the Waveland School.

The faculty of the Waveland School has announced that the following students have made the Honor Roll for the fourth period of this school year.

First Grade: Lynn Rose, Roddy Henley, Jerry Lafontaine.

Second Grade: Rosalee Carver, Butch Henley, Buddie Wilson, J. D. Bourgeois, Patsy Noonan, Anne Mae Oliver, Bobbie Landers, Grace Ann Bourgeois, David Peterson, and Georgetown Stals.

Third Grade: Patsy Bozeman, Lynne Hall, Michael Peterson, Hedy Ruhr, Sallie Yarbrough.

Fourth Grade: Geraldine Bourgeois, Paula Kimbrell.

Eight Grade: Hilda Russell, Louis Ladner, Joe Tanet.

Captain and Mrs. Karl Craft wish to thank their many friends who dropped in at the Anchorage Inn during the week end to wish them luck in their new enterprise. They also wish to extend a cordial invitation to everyone to visit them and enjoy the new and friendly atmosphere. Mrs. Karl Craft says to bring the "Rockets" to dinner. She served a child's plate and parents can relax while the youngsters enjoy their dinner.

Guests of Mr. and Mrs. Ed Gipson on Beach Boulevard over the week end were Mr. and Mrs. Joseph Quaid and Mr. and Mrs. Sam Colino of New Orleans. The many friends of Mr. Ed Gipson will be glad to know that he is better and out again after a recent illness.

Speedy recovery is extended to young Johnny McCurdy who was operated on in New Orleans Sunday for a bad appendix. Johnny's mother Mrs. Schreiber Mauffray is also in a New Orleans hospital but is reported to be doing nicely. Good cheer and good health are extended to both from their many friends in Waveland and Bay St. Louis.

Congratulations are in order to young Roland Seldine who was awarded a State boxing championship in the recent State Tournament held in the Bay High Gym. Roland showed himself to be a hard, clean fighter and a good sport. Roland is a Sophomore at Bay High School.

Mrs. D. R. Fitzroy and Mrs. D. R. Reagan of Biloxi visited the Anchorage Inn this week and discussed with Mrs. Karl Craft plans for a flower and rose show to be held in April. The show will be sponsored by the Blue Jean Garden Club. Mrs. Reagan is well known in flower circles as a flower judge.

Mrs. Karl Craft recently was awarded the achievement award in home demonstration in this area. Mrs. Craft is to be commended for her work as hers was one out of only five awards which were given in this county.

Mrs. Gerald Tucker is spending a few days in New Orleans with her daughter, Mrs. Anthony Fabre, who is ill. Mr. and Mrs. Joseph Albe and children were guests of the Tuckers over the week end.

Friends of Mr. Henry Leach are glad to see him in his drug store again after a bout of illness.

## ONLY ONE—PHILOSOPHEME—FOR LIVING

by D.W. ELLIOTT

For those of you who have not read Collier's Editorials; For those who do not have a clear picture of the forces in Korea; and, for those who are enjoying their warm beds, oblivious of the protective forces of our GI's now fighting for the security of our homes and nation.

Let me point here the most vivid picture I have seen that brings the GI's to each and every American here.

Lieutenant Robert T. Fallon wrote a letter to a friend while recovering from wounds sustained in the Korean War.

"On Your Own Front," the Lt. writes:

"I want you to imagine for a moment that it is a very cold, wet, wintry day. You have been sitting very comfortably by your fireside reading a good book. You decide to stop for a moment to get a breath of air. I'm sure you've done this before. But on this particular evening, a strange sight greets you.

There's a great hole right in the middle of your front lawn, and the hole has been thrown up all around it, and it's sharply against the snow. The hole is a hunched figure.

"I can tell you something about this man. He's been in this area now for three weeks, living in a dozen holes like this one on your front lawn. The most apparent thing about him is that he is cold. Every now and then he'll grab his shovel and dig a hole deeper in the hole just to keep warm. That's the only way he has, because he'll be seen if he builds a fire, and he may bring mortar fire into your room.

"He's been cold for a long time—cold. He can't feel his feet, and he's still worried because he's afraid he might be frostbitten. It's going to be a long night, and it's going to be a long day.

"He's very dirty. The grease from the C rations is frozen to his pants and gloves, and coats the two sides of his beard which covers his face. The small fires he dares to

make during the day is all over his pants and boots.

"But he's dirty all the way through. He hasn't changed his underclothes in over a month and he doesn't intend to for some time to come. It's too cold to go down that far.

"He's pretty hungry, too. They didn't get his rations up to him until after dark and he couldn't build a fire to thaw them out. He'll have to wait until morning. A cup of hot coffee would sure taste good. He looks old with that beard and that hunched posture. But he's only about nineteen, though not like any nineteen-year-old you've seen.

"You may wonder what he's thinking about as he sits there during those long solitary hours. Well, it's not much. Just how cold it is and again how nice that coffee would be. Maybe every now and then he thinks of home, but that's a long way off, and the cold, his feet and his hunger are much more immediate. You'd be surprised how those three things can fill your mind.

"You notice that he's cut a hole through your hedge and his rifle is sitting on the pile of dirt pointing in readiness through the opening. That's another thing he's thinking: When are they coming again? He gets a little scared out there all alone. He'd like to go over and talk to his buddy in a similar hole about two houses up, but it's not a good idea to go crawling around at night. He wishes they weren't so far apart, but it seems they always have a big sector to cover with never enough men to cover it.

"What would you like to do with this man? Ask him to your fireside, get him a cup of coffee? Would you like to lend him your razor and let him take a hot shower? Give him a bed to sleep in instead of the dirt and cold of his foxhole? Sure you would. You wouldn't think twice about it. But I'm afraid you can't. There's someone on that hill over there who wants to get into your front door, and the man was told by his platoon leader that he's supposed to take care of your house and the one next door. So he can't reach him. He's very far away.

"But you come out in the morning and he's still there, huddled over his little fire, thawing out his hands and his rations, trying to get the feeling back into his feet. By this time the hole is pretty deep from all the digging and he's cut down a little more of your hedge. He's there again when you come home from work. While you are

## '51 March of Dimes Campaign Success Says Underwood

The March of Dimes Fund Raising Campaign held in January was successful, according to Dr. Felix J. Underwood, State Health Officer and State March of Dimes Chairman.

"Almost complete reports from over the State give proof that Mississippians have responded warmly and generously to our need," said Dr. Underwood. "The total amount is not yet known."

The State Chairman paid tribute to the enthusiastic and energetic leadership of volunteer workers throughout the State. Mrs. Theo Tudury, Bay St. Louis, served as Campaign Director for Hancock County.

Dr. Underwood, in a personal letter to the editor of this paper expressed appreciation for the generous newspaper support of the Drive. "You have rendered a great public service. Never before was an urgent need presented with greater force and clarity, and much credit for success of the Drive belongs to the press," said Dr. Underwood.

To Campaign workers he said, "yours is a living contribution which will be translated into hope and courage for thousands of victims of polio, their families and friends. It will mean that the necessary supplies and trained personnel will be available for epidemic-stricken communities this summer. It also makes possible a continued intensive search for the final answer to polio."

"Dr. Underwood, Miss Esther Helm, State Representative of the National Foundation for Infantile Paralysis, and members of the March of Dimes Advisory Committee, expressed appreciation to everyone who helped make the Campaign a success.

Miss Helm is in New York City this week attending the annual meeting of State Representatives of the National Foundation. At this conference, Foundation staff members will review the 1950 polio epidemic and outline preparedness plans should polio strike again this summer.

Improved Pastures Protect Soil Against Erosion

Improved pastures provide about the most effective protection against soil erosion, says Fitzhugh Lee, Chairman of the Hancock County PMA Committee. At the same time, acre for acre, they may produce as much feed for livestock as corn.

According to studies made by the US Department of Agriculture, there are many instances where improved pastures have produced as much livestock feed per acre on comparable land as high-yielding corn crops and considerably more than other grain crops. On the other hand, the per unit cost of production is lower. These studies showed that the cost per 100 pounds of total digestible nutrients from improved pastures is less than a third of the production cost of corn for grain, about a third of the cost of corn for silage, and only about a fourth of the production cost of oats for grain.

Returns from pasture per man hour of labor from corn were six times higher than from oats, and nearly 10 times higher than for barley.

\$100,000 IS SOUGHT FOR 4-H FOUNDATION

Mississippi 4-H Club members, their leaders and interested business men are observing National 4-H Club Week by launching a statewide drive to raise \$100,000 for the State 4-H Foundation. Money raised through this drive will be used to complete three 4-H training centers and to set up a scholarship fund for deserving 4-H Club members.

greeted by a comfortable fire in a living room, the soldier is getting ready for another cold night.

Concluding, Lt. Fallon makes it plain that he has written his story of the soldier on the front lawn for the sake of understanding, not for sympathy. He says his soldier is not too happy to be thought of as one of "our poor boys overseas." He's a man doing a man's job. It's a rough and dirty job, but he'd rather that people didn't get sentimental over it.

All the lieutenant asks for the men in Korea is that we at home hold up our end of the job. He doesn't specify what "our job" is, and he doesn't need to. Nor is there any need here to labor the point of his story. All of us know what we are called on to do. Probably our assignment can be summed up in the overworked word co-operation—co-operation with the government and with one another in the inescapable tasks that face us, co-operation without selfishness or bitterness or petty complaining. After all, our part in helping to protect the front door is pretty easy.

Now that you have read the foregoing letter... read it again and dwell on it.
